GFHS 2018, October 2018, United Nations Conference Center, Bangkok, Thailand

一、会议背景

世界政治分裂、社会两极分化、经济不安全、文化疏远和环境不可持续等危机日益加剧，这迫切需要协作性领导力、突破性创新和集体行动，为所有人创造一个包容、韧性和可持续的未来。

身处一个城市星球，城市是实现可持续发展和应对气候变化的主战场。到 2030 年，在城市中采取自然友好的方法可以创造数万亿的商机。城市地区在应对上述危机和实现可持续发展目标方面也能取得最大进展，以加速人类发展、保护地球健康和创造持续繁荣。

具体而言，在应对多重危机挑战、实现可持续发展目标和气候目标过程中，创新发挥着举足轻重的作用。创新塑造了并将继续重塑城市和人居环境。以人工智能和互联网为代表的数字技术和新能源技术等重大创新科技正在并将极大地推动各领域的创新，进而改变未来世界。融合创新也变得愈加重要，它不仅关注技术创新，还强调治理、商业模式、流程和融资等方面的创新。与此同时，创新通常始于本地，通过复制、加速与规模化可以提高效率、降低成本并提高所有人的生活质量。

地方领导力是一种尚待挖掘的力量。联合国秘书长安东尼奥·古特雷斯强调：“地方权力的作用在很多方面甚至可能比国家权力更重要。当我们考虑如何使多边机构更加有效，并应对人类和地球当前和未来面临的挑战时，我们需要鼓励地方和区域当局的参与，听取他们的见解。可持续发展目标只有在每个城市都实现了，我们才算是真正达成了目标。”

具有前瞻性的地方政府和城市领导人具有独特的优势，可以通过以下方式利用融合创新的力量来改善治理并提高城市和社区的宜居性、复原力、繁荣和可持续性：1) 加快协同脱碳和脱钩进程，2) 创造以人为本的、行人友好的公共空间，3) 在主要行业试验零碳和零废战略和技术，以及 4) 扩大自然友好型策略和解决方案。

与此同时，联合国将于 9 月 22 日至 23 日在纽约举行 2024 未来峰会，就我们的未来应该是什么样子以及我们今天可以做什么来确保一个更美好的未来达成新的全球共识。在此重要背景下，作为世界上聚焦可持续城市与人居环境最

重要的会议之一，第十九届全球人居环境论坛年会暨新可持续城市与人居环境奖盛典（GFHS 2024）计划于 2024 年 10 月 24 日在美国纽约市隆重举办，庆祝 2024 “世界城市日”。本届年会主题为“增强创新和地方领导力，塑造可持续的城市未来”。

论坛将邀请各国政府官员、外交使节、联合国官员、国际组织负责人和高级代表、市长、商界领袖、知名专家、学者和青年领袖与会，重点通过创新和地方领导力的视角以及对此的需求，就发展、技术、环境和气候变化等紧迫问题进行富有成效的对话和探讨。论坛预计将形成一系列建议和成果共识。

I. BACKGROUND

The world is getting increasingly politically divided, socially polarized, economically insecure, culturally estranged and environmentally unsustainable, which extends a resounding call for collaborative leadership, groundbreaking innovation and collective action towards an inclusive, resilient and sustainable future for all.

On an urban planet, cities are a primary arena to deliver sustainable development and cope with climate change impacts. Cities are where nature-positive pathways can create trillions of business opportunities by 2030. Urban areas are the places in which the greatest progress can be made to resolve the above-mentioned issues of our ill-system, to rescue the Sustainable Development Goals (SDGs) and accelerate the transition sustainability for people, for the planet and for prosperity by 2030.

Specifically, in the course of addressing the multiple crises and challenges as well as meeting the SDGs and the climate goal, innovation plays a fundamental role. It has shaped and will continue to reshape our cities and human settlements. Major leading technologies represented by digital technologies, most notably AI and Internet, as well as new resource and energy technologies are and will greatly spur innovation in various sectors and transform the world. Integrated innovation which not only focuses on technologies, but also on governance, business models, processes, and financing, among others, is becoming essential. Meanwhile, innovation starts generally locally and can fuel greater efficiency, lower costs, and better quality of life for all, through replication, acceleration and scaling.

Local leaders are an untapped power to be unleashed. UN Secretary-General António Guterres stressed that: "the role of local power can even be more important than national power in multiple ways. As we consider ways to make multilateral institutions more effective, and to meet the current and future challenges facing people and planet, we need the perspectives and engagement of local and regional authorities. SDGs can only be reached if they are reached at each of the different municipalities."

Forward-looking local governments and city leaders are uniquely positioned to harness the power of integrated innovation to improve governance and enhance livability, resilience, prosperity and sustainability of cities and communities through a) accelerating decoupling and decarbonization in a coordinated manner, b) creating people-oriented and pedestrian friendly public spaces, c) experimenting zero-carbon and zero-waste strategy and technology in the major sectors, and d) scaling up nature-positive strategies and solutions.

In the meantime, Summit of the Future 2024 will be held by the United Nations on 22-23 September in New York to forge a new global consensus on what our future should look like, and what we can do today to secure a better tomorrow. In this important context, the 19th Annual Session of Global Forum on Human Settlements—one of the most important conferences worldwide focusing on sustainable cities and human settlements—will take place at the United Nations Headquarters in New York on October 24, 2024, while celebrating the World Cities Day 2024. The theme for this session is "Invigorate Innovation and Local Leadership for a Sustainable Urban Future".

The Forum will engage national government officials, ambassadors, United Nations officers, international organization heads and senior representatives, mayors, business leaders, well-known experts, scholars, and youth leaders on collaborative and productive dialogue and deliberation on pressing issues of development, technology, environment and climate change, notably through the lenses of and needs for innovation and local leadership. The Forum is expected to put forward a series of recommendations and consensus.

新可持续城市与人居环境奖 NEW SUSTAINABLE CITIES AND HUMAN SETTLEMENTS AWARDS

“可持续城市与人居环境奖”（简称“SCAHS/ 飒飒奖”，原名“全球人居环境奖”）是由全球人居环境论坛 (GFHS) 于 2005 年创立和颁发的一年一度的国际大奖，得到联合国环境规划署等联合国机构和国际组织的大力支持和指导。该奖项旨在促进《2030 年可持续发展议程》、特别是其“目标 11”的贯彻，表彰推广获奖者在建设更加安全、绿色、有复原力、包容和可持续的城市与人居环境过程所取得的突出进步和宝贵经验，带动更多人参与和自觉行动。

该奖项评审标准植根于联合国《2030 年可持续发展议程》和《新城市议程》，已经成功举办了十八届，获奖者来自世界各地，作为全球可持续城市未来最高奖项之一，产生了显著的示范效应。

借鉴有 120 余年历史的诺贝尔奖的成功经验，2024 年 SCAHSA 奖全面转型，升级为“新可持续城市与人居环境奖”（简称“新 SCAHSA/ 飒飒奖”），致力于成为全球可持续城市未来最高奖项之一。“新飒飒奖”将表彰和奖励可持续城市与人居环境领域，包括可持续发展和气候行动领域的杰出创新和地方领导力，并推广其先进的策略、技术、方法和成功经验。获奖者将在颁奖典礼上被授予证书、奖牌，并赠予奖金。这将激发获奖者的雄心和创造力，并改善其工作和生活条件，为可持续发展做出更大的贡献。

The Sustainable Cities And Human Settlements Awards (SCAHS) (originally "Global Human Settlements Award") is an annual worldwide prize initiated in 2005 by Global Forum on Human Settlements (GFHS) and supported by UNEP and other UN agencies. The awards program aims to accelerate the delivery of UN Sustainable Development Goals, notably SDG 11, recognize and celebrate winners' remarkable progress and valuable experience in making cities and human settlements safer, greener, more resilient, inclusive and sustainable, and drive more to follow suit and take decisive actions on the ground.

The assessment criteria of SCAHSA is rooted in the 2030 Agenda for Sustainable Development and the New Urban Agenda (NUA). SCAHSA has been successfully held for eighteen years until 2023, with awardees coming from different parts of the world. It has become one of the most important recognitions for a sustainable urban future in the world, producing a significant demonstration effect.

Drawing on the successful experience of the Nobel Prize with 120+ years of history, the SCAHSA in 2024 has been fully upgraded to the "New Sustainable Cities and Human Settlements Awards" (abbreviated as the "New SCAHSA"), aiming to become a global top prize for sustainable urban future. The "New SCAHSA" will recognize and reward outstanding innovation and local leadership in making sustainable cities and human settlements, including climate actions and sustainability practices, and promote their innovative strategies, technologies and approaches as well as successful experience.

瓦努阿图共和国常驻联合国代表团

Permanent Mission of the Republic of Vanuatu to the United Nations

<https://www.un.int/vanuatu>

瓦努阿图是一个美丽的国家，居住着美丽、可爱和自豪的人民。根据幸福星球指数，瓦努阿图在 2006 年被评为世界上最幸福的地方。

瓦努阿图共和国自 1980 年独立以来一直是联合国成员。尽管经济规模不大，但瓦努阿图与联合国所有其他成员国一样，与大国和强国享有平等的席位——一国一票。瓦努阿图通过其驻纽约的代表团，一直倡导国际合作，促进可持续发展、人权、裁军以及自决权和非殖民化。

代表团旨在确保联合国及其机构在迅速变化的全球环境中的相关性，并在冲突时期提供对话论坛。此外，与所有小岛屿国家一样，该国的经济和生计，以及在一定程度上的物质生存都受到气候变化的威胁。因此，瓦努阿图呼吁全球努力减少温室气体排放，将全球气温上升幅度限制在 1.5 摄氏度以下。

Vanuatu is a beautiful country, inhabited by beautiful, lovely, and proud people. Vanuatu was rated as the happiest place in the world in 2006, per Happy Planet Index.

The Republic of Vanuatu has been a member of the United Nations since the year of its independence in 1980. Despite the modest size of its economy, Vanuatu, like all other member states of the United Nations, has an equal seat at the table right alongside the big and powerful - one country, one vote. Ever since then the country, through its Mission based in New York, has been an advocate for international cooperation for sustainable development, human rights, disarmament, and the right of self-determination and decolonization.

The Mission aims to ensure the relevance of the United Nations and its bodies in a rapidly changing global environment and a forum for dialogue in times of conflict. Furthermore, like all small island nations, the country's economy and livelihoods, as well as to a certain extent their physical existence are threatened by climate change. Therefore, Vanuatu calls for global efforts to reduce greenhouse gas emissions and to limit the rise of global temperature to well below 1.5° Celsius.

联合国区域发展中心在发展中国家的干预措施分为三个主要的相互关联和相辅相成的工作领域：(a) 综合区域发展规划；(b) 可持续城市管理；(c) 知识管理。

UNCRD, which was established in 1971 based on an agreement between the Government of Japan and the United Nations, strives to promote sustainable regional development in developing countries with a focus on development planning and management in the context of globalization and decentralization trends, and the growing concern towards global environmental issues and their impacts.

UNCRD's vision is to achieve sustainable living environment for all - safe, secure, equitable and inclusive development in harmony with nature. The Centre's mission is to assist developing countries in their transition to sustainable development path in line with the new Development Agenda-Transforming Our World: The 2030 Agenda for Sustainable Development. Regional development planning and management is an effective set of tools that UNCRD is prioritizing to realize this mission through guiding subnational, national and international actions towards bridging the social, economic and environmental disparities within a region or among different regions.

UNCRD's interventions in developing countries are clustered under three main thematic interrelated and complementary areas of work-(a) Integrated Regional Development Planning; (b) Sustainable Urban Management; and (c) Knowledge Management.

安瓦尔·乔杜里大使

Ambassador Anwarul K. Chowdhury

全球人居环境论坛主席、联合国前副秘书长暨高级代表

Chairman of Global Forum on Human Settlements (GFHS)

Former UN Under-Secretary-General and High Representative

安瓦尔·乔杜里在我们这个时代的关键性议题——和平、可持续发展和人权方面有着丰富的经验，他是一名职业外交官、常驻联合国大使，先后担任联合国经社理事会副主席、联合国安全理事会主席、联合国儿童基金会主席、联合国副秘书长，曾获“吴丹和平奖”、“联合国教科文组织和平文化甘地金奖”和“联合国精神奖”。

乔杜里大使从 2008 年起担任全球人居环境论坛 (GFHS) 主席，也是该论坛的发起人之一。在他的领导下，全球人居环境论坛致力于“人人共享的可持续城市与人居环境”，建设世界可持续城镇化对话平台，获得了联合国经社理事会特别咨商地位。论坛年会已经成功地在世界各地举办了 18 届。

2007 年 7 月，乔杜里大使完成了他自 2002 年 3 月开始担任的联合国副秘书长和联合国最不发达国家、内陆发展中国家及小岛屿发展中国家高级代表的任期。作为一名职业外交官，1996-2001 年，他一直担任孟加拉国常驻纽约联合国代表。他还担任过孟加拉国驻智利、尼加拉瓜、秘鲁和委内瑞拉大使。

乔杜里大使分别于 2000 年和 2001 年担任两届联合国安全理事会主席。2000 年 3 月，在联合国安全理事会主席任职期间，他提出的倡议在政治观念上取得了突破性的进展，促使联合国安全理事会开创性地通过了“关于妇女、和平与安全的第 1325 号决议”。他创造性地发起了联合国和平文化倡议，即 1999 年被联合国大会通过的具有里程碑意义的《和平文化宣言和行动纲领》。他还主持起草了联合国大会《世界儿童和平与非暴力文化国际行动十年(2001-2010 年)》的宣言。

Chowdhury has a wealth of experience in the critical issues of our time—peace, sustainable development, and human rights.

Ambassador Chowdhury is the co-founder and the Chairman of the Global Forum on Human Settlements (GFHS) since 2008. Under his leadership, GFHS is committed to Sustainable Cities and Human Settlements for All and to build the worldwide platform for dialogue on sustainable urbanization. He was the Permanent Representative of Bangladesh to the United Nations in New York from 1996 to 2001. He also served as Bangladesh's Ambassador to Chile, Nicaragua, Peru, and Venezuela.

Ambassador Chowdhury served as President of the United Nations Security Council for two terms in 2000 and 2001. His initiative in March 2000 as the President of the Security Council achieved the political and conceptual breakthrough that led to the adoption of the groundbreaking UN Security Council Resolution 1325 on women and peace & security. He led a pioneering initiative at the United Nations on culture of peace which resulted in the adoption by the United Nations General Assembly in 1999 of the landmark “Declaration and Programme of Action on a Culture of Peace”.
